

Mountain River Toxicology, Inc

Aquatic Toxicity Testing for NPDES

5730 Industrial Park Rd.
Norton, VA 24273
(276) 679-6544

Mountain River Toxicology, Inc. was formed by bringing together the experience of two leading environmental firms to provide quality aquatic toxicity testing to the region. Environmental Monitoring, Inc. (EMI) has been providing analytical and field services to the region since 1983. Coastal Bioanalysts, Inc. has been specializing in aquatic toxicity testing since 1988. Together, the staff from both companies operate a new laboratory facility located in Norton, VA. The company is strategically located to fulfill all of your environmental testing needs.
